DESCRIPTION

28 Watt LED downlight consisting of 4 x LED chips (Made in Japan) in 3000K, 4000K or 5000K colour temperature options. All colour temperatures have a high colour rendering index (CRI) and high lumen outputs of 1700Lm (3000K), 1940Lm (4000K) and 1960Lm (5000K). Large passive heatsink provides effective thermal management ensuring high output and long lifespan.

Option Extras

- Cable lanyard support for recessed mounting.
- Short secondary reflector
- 240V Dimming available with Phillips Xitanium LED Driver
